

## Notes (vulval cancer)

- **Ia** < 1mm (superficially invasive)
- **Ib** < 2 cm (wide local excision possible)
- **II** > 2cm, confined to vulva, no suspicious lymph nodes;
- **III** lesions beyond vulva, or suspicious lymph nodes.
- **IV** grossly positive lymph nodes or bladder/rectum involvement or distant metastasis.

### 5 Year survival

I : 97%

II : 85%

III : 50 – 70%

IV : 30 – 50%
